Jonatan Piedra

Full Stack Web Developer

jonatan2502@gmail.com   +58 414 1669619   Zulia, Venezuela

LinkedIn   GitHub

I'm a Full Stack Web Developer formed as a Systems Engineer. I'm determined, pragmatic learner, team worker and an adventurer, and I like to think my background as an engineer gave me a logical, result-oriented thinking. I'm eager to collaborate in new web development projects and I'm open to relocate almost everywhere if it's needed.

TECH SKILLS

HTML, CSS, JavaScript, React, Redux, Node, Express, Sequelize, Postgres, Scrum, Git.

PROFESIONAL EXPERIENCE

Full Stack Teaching Assistant   September 2022 – Present

Henry Bootcamp, Buenos Aires, Argentina

Bootcamp Assistant (TA) for Full-Stack Development Students.

Main tasks:
• Coordinate a group of students to achieve integration to the study group.
• Guide students in the first steps of the course.
• Assist to solve exercises and promote group collaboration (Pair Programming).
• Propose ideas to improve the Bootcamp processes.

PROJECTS

Full Stack Developer   **Juira Market**   October - November 2022

Along with six of my classmates, we developed JUIRA, a marketplace where users can sell or buy second-hand products.
The marketplace features a shopping cart, a wish-list, a review-after-buy system and Q&A modules, email notifications, third-party authentication and a dashboard with particular menu options according to the user's role (regular/admin).

Skills: Nodemailer · Scrum · Agile Methodologies · Express.js · Material-UI · PostgreSQL · Redux.js · React.js · JavaScript · Node.js

Development of a Single Page Application that consumes data from The Dog API. The user can filter breeds according to its temperament as well as sorting them alphabetically and by weight, create a brand-new dog breed using a controlled form and randomly access a single breed's details.

Skills: Cascading Style Sheets (CSS) · Express.js · PostgreSQL · HTML5 · Redux.js · React.js · Node.js
